Warranwood Primary School

Senior School
Parent information session #2
Parent session

- CyberSafety at school
- CyberSafety & iPad use at home
- Backing up your device
- Setting up restrictions
- Storage management
- Question time
CyberSafety at school

Ongoing focus throughout the WHOLE year

What do we cover?

- Cyber Bullying
- Social Media
- Digital Citizenship
- Sharing of Personal Information

www.cybersmart.gov.au
iPad use at home

We recommend:

• Agree to ground rules as a family

• Parents take time to be part of what their child is doing online

• Parents guide and talk to their child about their online activities

• Students use devices in public spaces at home

• Parents monitor the length of time spent on the device each day

• You get to know the apps your child is using. If you don't know an app on your child's device make time to find out

What iPad rules do you have at home?
What works best for your family?
• Focus on the positive aspects of the internet

• Share time looking at sites that are interesting, fun or educational

• Encourage your child to question information found on the internet. Is it trying to sell something, is it just an opinion or is it trying to influence me?

• Devices are switched off at least 1 hour before bedtime

• Devices are not charged in bedrooms overnight

• Students think about their posture when using their idevices

Expectations & Limits
Backing Up

Back up your device every 4 weeks
Setting Up Restrictions

- Control Center
